PROFESSIONAL SUMMARY

Aspiring Software Engineer and Cloud/AI specialist, currently completing a Master's degree at National Yang Ming Chiao Tung University (NYCU). Solid foundation in Python programming, C/C++, networking protocols (Wi-Fi EasyMesh), and cloud computing. Hands-on experience developing network test plans during a software engineering internship at WNC. Targeting Junior Software Engineer, Cloud/AI Engineer, and IT specialist roles.

CORE COMPETENCIES

Python Programming

Wi-Fi & Network Protocols

Cloud Computing Foundations

Kubernetes Documentation

Software Testing & Automation

IT Infrastructure & Systems

WORK EXPERIENCE

Wistron NeWeb Corporation (WNC)

2025

Software Engineering Intern

Hsinchu, Taiwan

- Developed and implemented a comprehensive test plan for Wi-Fi EasyMesh products to ensure seamless multi-AP network connectivity and performance.
- Automated network testing processes and validated mesh protocol compliance.
- Collaborated with engineering teams to diagnose network performance issues and optimize test scenarios.

OPEN SOURCE CONTRIBUTIONS

Kubernetes Documentation Contributor

Open Source

Contributed Traditional Chinese (zh-tw) localization for official setup guides, including learning environments and production environment container runtimes. Localized technical documentation covering container engines (containerd, CRI-O, Docker Engine) and local cluster architectures. Collaborated with Kubernetes localization SIG maintainers to review, format, and align content with technical standards. Gained deep knowledge of Kubernetes ecosystem tools (Minikube, Kind) and collaborative Git workflows.

Git, Kubernetes, Markdown

EDUCATION

MS in Computer Science National Yang Ming Chiao Tung University (NYCU)

Expected Graduation: December 2026

CERTIFICATIONS

SKILLS

Languages: Python (proficient), C/C++ (basic)

Domain Areas: AI, Wi-Fi / Networking Protocols, Cloud Computing, IT Systems & Infrastructure
